## **PRESERVATIVE FREE IN A BOTTLE**

Clear Eyes<sup>®</sup> Pure Relief™ for Dry Eyes is a new preservative free eye drop in a multi-dose bottle. Thanks to the improved value and convenience of the bottle, preservative free drops can now be a 1st line of defense in treating your patients with dry eye.

## **IT'S ALL ABOUT THE BOTTLE**

Proprietary bottle technology has one way fluid flow with a **built-in purifying filter** in the tip to keep bacteria out, allowing the formula to be preservative free. The filter is gas-permeable only to allow air into the bottle for dispensing purposes, but bacteria is filtered out so there's no need for preservatives. The technology is proven and has been fully microbiologically tested so there is no compromise in stability.

## **GREATER VALUE & CONVENIENCE WITH LESS WASTE**

Our research shows that patients prefer a bottle 2 to 1 over the current technology of single use vials. Clear Eyes<sup>®</sup> Pure Relief™ delivers over 240 drops in one bottle, and at a lower cost than most current products with only 60 single-use vials. The Clear Eyes<sup>®</sup> Pure Relief™ bottle is made of soft plastic with low actuation force so it allows for one-drop control and is easy to use.

## **ENHANCED FORMULA DELIVERS UP TO 12 HOURS OF SOOTHING COMFORT**

Designed to match the natural viscosity of tear film, Clear Eyes<sup>®</sup> Pure Relief™ for Dry Eyes is a glycerin-based formula that contains Sodium Hyaluronate with bio-adhesive properties for advanced comfort. The result is long lasting comfort for Dry Eye sufferers, up to 12 hours of soothing comfort, based on a user perception study.
